

Farrier F9AX "Gem"

"Gem" is fully equipped for fast cruising & has cruised Ireland twice, Brittany 4 times & Scillies numerous times. She can be safely sailed single handed or with crew. All halyards are led to cockpit.

The diesel engine is ideal for cruising as can be started by simply turning the key (i.e safe!) & the prop has never cavitated. A 30A alternator keeps the 2 batteries in good shape.

Some cruising articles can be found in MOCRA

website

Year: 2000
Builder: Colin Lovett, Sussex, England
Construction: Foam sandwich epoxy laminate
